

RC Series Remotes

RV Series Accessories

RC 6 Remote Control

RC 7 Remote Control

RC 7/GS Remote Control

Exclusively designed for use with RV Series Inverter/Chargers

RC remotes dramatically expand RV Series features and functions. The RC6 remote provides inverter/charger on/off control and basic system monitoring. All RV Series products have a built-in shunt, which when paired with the optional RC7 series of remotes enables advanced battery monitoring and inverter/charger control. Acting like a fuel gauge in your RV, the RC7 remote provides complete system monitoring and displays all DC current going in or out of the battery bank. The addition of an RC7/GS to any RV Series inverter/charger will enable automatic generator starting. Interconnection cables are available in 15, 25 and 50 foot lengths.

RC6 Remote Control

- ▶ Inverter on/off control
- ▶ LED bar graph display of battery voltage, DC amps
- ▶ LCD status display of fault conditions, charging stage
- ▶ Part number: RC6/50 (includes 50' plug-in cord)
- ▶ One year warranty

RC7 Remote Control

- ▶ Inverter on/off control and system set up
- ▶ LCD text displays:
 - ▶ Battery fuel gauge information
 - ▶ Run time remaining at the present load levels
 - ▶ Time required for recharging the battery
 - ▶ Battery voltage
 - ▶ DC amps
 - ▶ AC voltage and amps
- ▶ LED status display of fault conditions, charging stage
- ▶ Part number: RC7/50 (includes 50' plug-in cord)
- ▶ One year warranty

RC7/GS Remote Control

- ▶ Includes all features of the RC7
- ▶ Automatic generator starting function
- ▶ Generator starting lockout for quiet time
- ▶ Part number: RC7/GS/50 (includes 50' plug-in cord)
- ▶ One year warranty
